## STILL KEEPS POSSE AT BAY

Beardslee With Wife and Nine Children Holds Home Two Days Without Food

## AID OF MAN'S BROTHERS SOUGHT—MILITIA MAY ACT

Fear of Injuring Children and Woman Deters Attack by Sheriff and Men

SUMMERDALE, N. J., Jan. 17.—Edward Beardslee is still holding at bay Sheriff Anderson and his posse today, barricaded in a farm house with his wife and nine children. The posse is endeavoring to arrest Beardslee for shooting Poormaster Putnam, who tried to take his children to the poorhouse. Beardslee yesterday in a parley with the sheriff consented to surrender if his brother at Titusville, Pa., would take his children. His brother refused to assume that responsibility.

With his wife and children without food in the besieged house for two days, Beardslee is alert with his gun today. The sheriff is considering plans to rush the house, but refuses to permit his men to fire for fear of wounding the children or wife. There is some talk of calling out the militia. Another brother of Beardslee, of Jamestown, N. Y., promises to come and talk with Beardslee today, but it is not believed he can aid in the situation.

The authorities are willing to starve Beardslee out, but point to the fact that the weaker woman and children will probably suffer first and might die before the man becomes helpless from want of food.

## JAPAN AMAZED AT LOW ESTIMATE OF DEATH

Disbelieves Government Figures Given on Fatalities of Volcano Disaster

TOKIO, Jan. 17.—Japan saw with profound amazement today the official announcement of the small loss of life resulting from the Sakurajima eruption. The government's report is not implicitly believed, as it has recently secured a tight grip on the Japanese news gathering business in order to exploit the country's resources. Evidently, however, there is much basis for the official claim that the early stories in which enormous numbers were reported killed were sent out by terrified refugees who exaggerated prodigiously.

It is admitted that two thousand houses were destroyed on Sakurajima and that many people unaccounted for are probably dead, although only eleven bodies have been found. Thousands of refugees are destitute.

## COL. GORGAS' RANK RAISED—GOULD TO BE SURVEYOR-GEN'L

The late James A. Poshay was one of the directors elected at a meeting held last Tuesday night. The board of directors last night agreed to attend the funeral in a body today and appointed a committee to draft resolutions of sympathy to the widow of Mr. Poshay.

Sir James Whitney, Premier of Ontario, Ill

Sir James Whitney, the premier of Ontario, is very ill in New York city. For several weeks he has been in the Hotel Manhattan, where he is being attended by Dr. Herman M. Biggs and Dr. R. A. Pyne. Dr. Pyne is a member of the minister of education. When Sir James first came to New York he was suffering from a nervous breakdown. Dr. Pyne thought a long rest would restore him. But he did not improve, and several days ago the patient's weakness affected his heart. The symptom was considered serious, whereupon Dr. Biggs was called into consultation.

## SITUATION NOT GRASPED BY WILSON ONLY \$2500 SAVED

So States Huerta—Dictator Says Situation Would Be Worse if He Resigned

## DENIES RESPONSIBILITY FOR DEATH OF MADERO

Orozco Reported Dead—Also Reported Alive, Seeking to Start Private Campaign

(Staff Correspondent United Press.) MEXICO CITY, Jan. 17.—President Wilson is all right, but he does not understand Mexicans and Indians," Provisional President Huerta is quoted as saying to Charge d'Affaires O'Shaughnessy, who occupied a seat in the dictator's automobile at a funeral held late yesterday. "I could not quit if I wanted to, and if I did, what would follow would be worse than anything in the past." The dictator complained of the inefficiency and disloyalty of his generals, especially mentioning General Mercado, who led the flight of the Chihuahua garrison to Ojinaga. It is understood he also assured O'Shaughnessy that he knew nothing of the death of Madero and Suarez until after both were slain. War Minister Blanquet has issued an order for General Mercado to be shot if he returns to Mexico, declaring that instead of fighting for his country he accepted the bribes of the rich to escort them to the international border.

## CONTRADICTIONS AS TO FATE OF GEN. OROZCO

EL PASO, Jan. 17.—Contradictory reports are current today as to the fate of General Pascual Orozco, who took to the hills on the Mexican side of the border when the rebels recently captured Ojinaga. General Bliss, commanding the American troops at the border, heard that Orozco had been killed at Cuatro Cifegas, telegraphing the unconfirmed report to Washington. Later reports said that Orozco, with 75 men, reached Coahuila, plundering as they went, and that Orozco was trying to recruit a sufficient force there to continue a private campaign. The capture of General Salazar yesterday led the border patrol to believe that Orozco and Caraveo, possibly with other soldiers and officers, were hiding in Texas and that more arrests might be expected. Salazar at first said he thought Orozco had been killed at Ojinaga, but later admitted that all the generals had escaped.

The defeated Mexican soldiers and refugees who are being taken to El Paso as wards of the American government last night had reached Shafter, twenty-two miles from the border.

## COMMITTEE REPORT SHOWS WHAT'S THERE

Bondholders' Representatives Did Good Work Settling Up Affairs

Out of the wreck of the National Home and Town Builders those settling up its affairs have been unable to save only about \$2500 for distribution among bondholders. A good many Orange county people were represented among the bondholders. It was some years ago that promoters started the Anaheim Investment Company. It was certainly well promoted, from the promoters' point of view. That was merged into the Orange County Investment Company, and that also was well promoted. When it got up against a hard row of potatoes to hoe, the property was sold to the National Home and Town Builders, and the Orange county people took bonds of the National Home and Town Builders for pay. Then the National company went on the financial rocks, and the bondholders organized a committee to see what could be saved from the wreck. There was mighty little to save. It is estimated that between \$50,000 and \$60,000 of Orange county people's good money dropped out of sight.

The report on the present condition has just been made by T. L. McFadden of Placentia and H. L. Dearing of Los Angeles, son of Rev. A. L. Dearing of Santa Ana. In that report appears the following:

"At the last meeting of the bondholders, called in May 1913, there was then due on outstanding obligations, namely, on these mortgages and contracts of purchase, \$3190.17 principal and interest, and there was to become due \$6000 in October and \$1500 in November following. The bondholders were not able, or were unwilling, to advance the necessary money to take care of these obligations and enable care to hold on to these properties, or some of them. Being loath to allow our interests in these properties to become forfeited without some compensation, we have persisted in an endeavor to save something from them, and by constant negotiations have at last obtained clear title to five lots in the Highland Heights tract and two lots in San Pedro, having an approximate conservative value of nearly \$2000, together with \$200 in cash. An additional sum of \$230.67 cash has been received from the sale of fixtures and furniture. This constitutes all of the property that your committee has been able to save from the assets of the National Home and Town Builders Company. A desperate attempt was made to dispose of the lease at 350 Hill street and save the deposit made as security. In this endeavor three months' rent of \$175 a month was paid by the members of your committee out of their private resources. We were finally compelled to allow the lease to lapse."

Edgar Johnson, editor of the Fullerton Tribune, who at one time was one of the bondholders' committee, touches up the promotion career of this affair as follows:

"This committee has probably saved out of the wreck property worth about \$2500, which is a very good showing, as the old corporation was milked dry before the remainder was left. This is all that is left of the \$50,000 or \$60,000 in cash and property that was turned by residents of Orange county to the new National Home and Town Builders when that company was formed in Los Angeles about three years ago. "Thousands of hard-earned dollars passed from the hands of needy men and poor women to slippery fingers, never to return to those who toiled long hours for the money, many stockholders denying themselves the necessities of life while saving the dollars that went to this concern. "The next time grafters come this way and try to rope in people on such flimsy propositions, it would be a pretty good idea to ride them out of the county on a rail or place a little dynamite on their trail. "It is hoped that this costly experience will be worth much to the people of Orange county in the future."

## SHOW FILM WHITE SLAVE TRAFFIC—ARE INDICTED FOR IT

NEW YORK, Jan. 17.—The grand jury yesterday indicted Samuel H. London, John S. Hadney and Harry C. The grand jury returned the indictments after witnessing the film at a private exhibition given by Mrs. Inez Millholland Boissevain and other prominent suffragettes, who have strongly endorsed the film.

HENRY FORD

## HENRY FORD, THE NEWEST OF PHILANTHROPISTS

This is the philosophy of Henry Ford of the Ford Automobile Company, which has announced it will share its profits to the extent of \$10,000,000 this year with its 22,000 employees:

A man can lose all he has, but if he keeps the good will of those he has associated with, he'll still be rich. Goodwill is about the only fact there is in life.

It is the good will of our employees that we wish to cultivate. The distribution of a part of the profits among the employees is not charity. It is good logic and common sense.

Ten million dollars of anticipated profits will go to the men who work by the day. They are not to get it with an "if" attached to it, and they are to get their share every two weeks.

Even if we do not make an increased profit in dollars and cents, we will have the satisfaction of making 20,000 men prosperous and contented, rather than making a few slave drivers in our plant millionaires.

Our theory that the man who sweeps the floor is worth \$5 for eight hours' work is not only sound business, but it is social justice. It costs just as much to feed the babies of a floor sweeper as it does to feed the babies of a motor construction engineer.

I believe that before long many other lines of business must realize the fact they must share equitably the profits with the men who made these profits.

I can see no purpose in one man or a few men accumulating a great fortune. It can do no good and most often causes others much harm. There is no reason I should leave a great fortune behind me. I have only a son and he is a worker in the factory.

For years we have been as familiar with the home life of our men as we have been with their factory life. They will not abuse this good fortune.

If men will work better in the hope of something how will they work with that something actually in hand?

We start our women in at \$40 a month. Those who have families dependent upon them will get the \$5 a day as a minimum.

## 2000 WILL JOIN IN GREAT PAGEANT

Y. W. C. A. of Los Angeles to Present "Ministering of the Gift" by Helen Thoburn

Los Angeles Examiner: Exceeding in numbers any previous cast which ever presented it before in other sections of the country, "The Ministering of the Gift," the remarkable pageant written and devised by Helen Thoburn, will be produced by the Young Women's Christian Association January 31, at the Shrine Auditorium.

More than two thousand young women and girls will take part and rehearsals which are now under way under the direction of Miss Sue Barnwell, secretary of immigration for the Y. W. C. A., and Prof. L. G. Natkemper of the University of Southern California, indicate that it will be one of the most unique dramatic affairs in local history.

The pageant has been given on a half dozen occasions in the East and the West, but never before did so many take part.

Miss Thoburn, the author, is one of the national secretaries of the Y. W. C. A., and is well known here, as she is a graduate of Stanford and a Californian. Ten episodes of association life will be portrayed in the pageant, the big feature of which will be the animated rainbow, in which 2000 girls garbed in white and with colored sashes, will appear.

## RACE WAR BREWING AT RIALTO BETWEEN JAPS AND WHITES

SAN BERNARDINO, Jan. 17.—Armed deputies from the sheriff's office will be sent to Rialto tonight, where trouble is feared between Japanese and white men out of jobs, including many Industrial Workers of the World. The latter demand that the ranchers discharge the Japanese and hire the whites, but the growers refuse.

The white men threaten to drive the Japanese out tonight. Many of the Japanese are armed, and declare they will resist attack. Sheriff Ralphs stated that he will have sufficient deputies at Rialto tonight to preserve peace.

## LAUNCH CALYPSO LANDS 30 CHINESE

MONTEREY, Calif., Jan. 17.—The launch Calypso of Long Beach beached here last night after it is alleged to have landed thirty contraband Chinese who escaped to the hills when the immigration officer captured the owner, Maurice Pettenger. Engineer Fred Fox and David May. The officials say that three others escaped with opium valued at \$20,000.

The launch has been under surveillance since early in December. The officers learned she would attempt to land at Monterey bay last night. She entered the bay during a heavy gale, running dark. A government cutter followed, cutting off her escape. The launch then beached and the officers on shore captured the men, who will be taken to Los Angeles.

## "POLARIS" AT MERCY OF WAVES

High Seas Prevent Aid from Leeward Side for Vessel Grounded Near Pt. Reyes

## FOUR SHIPS STANDING BY POWERLESS TO RESCUE

Sixteen Aboard When Ship Struck on Reef But No Life Now Evident on Board

SAN FRANCISCO, Jan. 17.—Advices this afternoon declared that the captain and crew of the Polaris, aground on Duxbury Reef, near Point Reyes, had escaped death by walking the reef to shore this morning. There is no confirmation of the report from vessels standing by.

## POLARIS IS POUNDING TO PIECES ON DUXBURY REEF

SAN FRANCISCO, Jan. 17.—The four-masted schooner Polaris with sixteen men aboard was ashore on Duxbury reef near Point Reyes early this morning. The revenue cutter Iroquois was soon standing by but at 9 o'clock had been unable to remove the crew. The Point Reyes life saving crew started for the scene at daybreak. The high seas are threatening momentarily to break the schooner in two.

At 10 o'clock four rescue ships were standing by. A wireless message sent here to the owners said: "The Polaris is lying on her starboard side. Life saving crews are expected momentarily. Captain Hansen and his crew will be saved."

A wireless message sent an hour later from the revenue cutter Unalga said the sea was too high to attempt to aid the Polaris and that the only hope for the crew is from the land side. Point Bonita life savers are journeying overland with their equipment loaded on mules. It will be at least three hours from the start before they can arrive. The wireless says there are no signs of life aboard the Polaris but there are small boats in the davits, therefore it is believed the crew is still aboard the vessel.

The Polaris was being towed from San Francisco to Eureka by the steamer Wilmington. The tow line broke last evening outside the Heads and the wind was so strong that all attempts to pass another line failed and the Polaris went adrift. The Wilmington was unable to face the gale blowing in from the sea, was forced to put back to port. The Polaris began sending up signals of distress about 9 o'clock last night while near the Bolinas Bay section. Rocket after rocket flashed in the night but the vessel was swept northward by the gale away from the bay's mouth. After much effort captain Hansen succeeded in setting the reef stay sails but there were not sufficient to carry him by the reef.

By tonight, he said, practically the whole seaboard of the state and a large portion of the interior would feel its brunt.

## WHITTIER WINS FROM ORANGE

Whirlwind Game of Basketball Gave a Score of 42 to 25

(By Staff Correspondent)  
ORANGE, Jan. 17.—The Whittier Athletic Club defeated Orange on the home floor last evening in a whirlwind game of basketball. The final score was 42 to 25. Two hundred enthusiastic fans witnessed the game.

The Whittier men outclassed their smaller opponents at almost every stage of the game, but the locals put up a hard fight and kept trying until the final whistle.

The teams lined up as follows: Whittier: Hood, Spicer and Redman, forwards; McBurney, center; Mann and Sharpless, guards. Orange: Putnam and Hart, forwards; Pine, center; Pister and Slater, guards.

The Inzierno Club of the Orange Union High School entertained its high school friends last evening with a social dance given at Barger's hall. A large crowd attended and an enjoyable time was reported from the affair. Music was furnished by a special orchestra.

Harris, pastor of the local M. E. church. They will make their home on a ranch there. The bride is a niece of Mr. and Mrs. Thomas Morin of Orange.

### TRUCKING BY NIGHT

Arthur Williams, president of the Electric Vehicle Association of America, says that traffic congestion in New York, Chicago and other busy cities could be relieved by doing the trucking by night instead of by day. There is believed to be no reason why wholesale trucking could not be done at night. Goods may be moved from the terminals to warehouses and the moving in large quantities of merchandise to the large department stores does not have to be done in the daytime. Mr. Williams even thinks that coal might be delivered to large buildings at night. When the streets are not occupied by other traffic greater speed may be maintained and deliveries may be made in less time.

## BANQUET HELD AT ANAHEIM CITY MARSHAL VINCENT QUILTS

Board of Trade Has Annual Meeting—Rainfall Nearly Three Inches

ANAHEIM, Jan. 17.—The annual banquet of the Anaheim Board of Trade was held at the Y. M. C. A. Thursday evening. The committee in charge of arrangements were H. C. Inskip, chairman; W. S. Todd and J. Frederick Alhborn. Charles E. Broad acted in the capacity of toastmaster. Homer Ames reviewed "Happenings in 1913." F. T. Edmiston, "Liable to Happen in 1914." A. A. Mills, "Good Roads Leading to Anaheim;" Prof. D. W. Hauck, "Are We Keeping the Pace in Educational Realms?;" G. W. Sandiland, "Is Anaheim in the Frostless Belt?;" Rev. David Todd Gilmore, "From the Pulpit;" Mayor Hans V. Weisel, "Now, Altogether! Full Steam Ahead!" Each speaker handled his subject in a highly entertaining manner and the evening was pronounced a feast intellectually, as well as gastronomically.

The stockholders of the Anaheim National Bank held their annual meeting for the purpose of electing a board of directors. William McLaughlin, S. C. Hartman, F. C. Krause, B. Fisher, J. W. Duckworth, J. J. Dwyer, Charles E. Broad and U. V. Simpson were elected. Charles E. Broad was elected president; U. V. Simpson, vice-president; F. C. Krause, cashier; E. S. Goble, assistant cashier.

HUNTINGTON BEACH, Jan. 17.—The many failures to convict men arrested by City Marshal E. L. Vincent of Huntington Beach during his incumbency in office since last April, and the strong dislike of a portion of the people of this city for the marshal culminated yesterday in his resignation, which he handed Mayor Seely, to take effect February 1.

Right or wrong, the marshal is unpopular among a class of people here, and this fact has led to innumerable disturbances of the peace and the acquittal of almost everybody who has been arrested by him for minor offenses. The marshal is conceded to be a man of good character and intentions, but is accused by those who oppose him of being without tact and inclined to act on impulse.

The resignation has caused a sensation here and the city trustees seem inclined to appoint in Vincent's place some outside man who has neither friends nor enemies here, and so will assume the office without any entangling alliances. In his resignation, which is to be presented to the city trustees at their meeting next Monday evening, the marshal alleges that his financial condition makes it impossible to hold the office at the present salary.

## SAVING THE RADIUM

Probably most people will feel that coal lands should originally have been saved by the government as common property. Coal could thus have been delivered to the consumer for the cost of mining and transportation, and a heavy tax on industry and household comfort would have been saved.

Today the scientific world is exploring with increasing wonder the marvelous properties of the new element, radium. Confident predictions are made as to its efficacy for the cure of cancer and other diseases. An amount of this element valued at \$100,000 is now planted in the flesh of a congressman who is suffering from a malignant growth.

This element exists in infinitesimal amounts, with only two grams known now to exist in the United States. Yet it is contained in our ores quite as much as in Europe. In Austria the government has bought out the mines containing the new force, and will conduct them in a way to assure public participation in its benefits.

The atoms composing radium seem to undergo a certain form of regular explosions, which liberate energy. It is said that an ounce of radium could keep up this activity 1760 years, and only half its weight would be dissipated.

Scientists say that the springs at the English city of Bath, supposed to be good for bilious, nervous, and scrofulous complaints, contain radium. These waters have been visited by the suffering for 2000 years, and perhaps the presence of radium is a large element in their power. After drinking a glass of Bath water, a man shows the mysterious effect of radium by measurement of an electroscope. Plant buds exposed to radium emanations for a day or two can be made to sprout in the fall.

Who can foresee the marvelous range of this power? How carefully every trace of it should be saved from speculators.

## THE JAWS OF THE "LOAN SHARK"

One voter out of every four in the larger cities, say social workers, has to resort regularly or occasionally to loan offices. He must often put up two days' work to get the price of one. To meet these grinding conditions, Andrew Carnegie, Vincent Astor, and other philanthropists are working on a plan just announced to supply loans at reasonable rates to honest working people.

Not merely does the victim of the usurer have to pay an inordinate rate of interest; frequently also he is assessed a string of charges for legal expenses whenever he fails by a few days to make a payment. The grip tightens day by day. A final resource is to send a clerk into the place of business where the man is working, and hawl out a demand to pay so every one can hear. Then he probably goes off to some other money shark and borrows money at 100 per cent to pay the first loan.

Yet efforts so far to make these small loans at low rates have not commonly been successful. Some philanthropists tried it in Cincinnati. They found that to make the small loans self supporting, they had to charge 48 per cent. All these companies are the victims of swindlers whose resourcefulness is beyond belief. Everyone thinks it is fair game to cheat a usurer.

No doubt a great many of these offices charge only a rate of interest sufficient to pay expenses, charge off a volume of losses yearly, and pay a decent profit. The honest man pays the freight for the dead beat. Money lenders have existed since the earliest glimmering of history. No laws can drive them out. Close up their doors, and they do business from the vest pocket.

No doubt offices conducted as a charity would considerably reduce the prevailing rates. But the only permanent remedy is to instruct young people in a perfect horror of debt, as the most crushing ill of life.

## WILL YOU BE ONE OF 2500?

The time is short in which to secure 2500 names. Every voter in this city who believes in Civic Righteousness in the state of California is asked to register at once, in order to be able to sign the Anti-Prize-Fight Petition if you have not already done so. If you have signed you must not sign again, as no duplicates will be considered.

You must be registered since January 1, 1914, in order to sign this petition now.  
A few don'ts for women:  
Don't sign with just your initials. Write out your full name.  
Don't sign with your husband's name or initials. Use your own first name.  
Don't leave out your middle name or initials if you have registered with it in.

Don't fail to give your residence address. This is important. Please consider it as much your duty to hunt up some one with a petition in order that you may sign it, as it is their duty to hunt you up. Only residents of Orange county can sign Orange county petitions. Anyone desiring to circulate petitions can be supplied by applying to Mr. S. J. Jackman, at Santa Ana. All petitions should be duly sworn to and returned to Mr. Jackman for filing.

Individual circulars must not file petitions.  
Only forty (40) days are allowed in Orange county from the date of filing the original petition. All petitions must be in Mr. Jackman's hands several days prior to January 30th.

If this proposed law fails now to get on the ballot the work will all have to be done over again. All public spirited citizens should not wait a day before they register and find some one with one of these petitions and sign it, thus registering their vote against pugilism in this state forever. Enlightened California should no longer tolerate this relic of the dark ages. Let us wipe it out now.

## CONDITIONS IN THE ORANGE ORCHARD

Every indication points to an early spring; to a season when anything and everything will grow; to conditions which mean care in the handling of both orchard and crop, if the most is to be got out of them.

Of paramount importance just now is the marketing of the orange crop; its handling in such a way as to insure safe arrival in the Eastern markets in good condition, free from decay; and it is right here that an early growing spring may cause trouble. While oranges are sizing up rapidly in all sections, there having been neither cold snap nor drying winds to check them so far, a tendency to "puff" has been apparent for some time in all districts. The fruit is well matured, sweet and juicy, as ripe and well colored as it has been in many past Februaries, and this puffing may cause considerable trouble as the season develops. On the other hand, however, an early "puff" will frequently "harden up," or disappear should conditions be favorable.

The orange tree will now soon start "hauling," sap flowing freely and young growth make an early appearance. For this reason heavy spring plowing will need to be done early unless the active feeding rootlets of the tree are to be destroyed at a critical time; and manure and fertilizer can be applied at the same time as this work is done. Green or cover crops are growing very rapidly and will now soon be ready to turn under. Where there is a heavy crop on the tree, especially where it is showing signs of puff and it is desired to hold at least a part of it for later markets, it may not be advisable to force the tree growth or sap flow, which would have a tendency to "weaken" the oranges on the tree, inducing more puff and earlier maturity. Under these conditions, however, care must be taken, should the plowing be held over for a time, in order not to injure the young feeders.

Last spring was not a growing spring; trees and gardens alike took time to recover from the shock of

the cold spell. The hills were brown; walnut and deciduous trees had long been bare of foliage; flowers were scarce, at this date. This year the hills are green; many leaves still remain on walnut and deciduous trees; flowers are plentiful. The ground is warm and an early flow of sap may be expected in the Orange trees, with a big bloom and a big setting of fruit.

A certain store in Los Angeles advertises: "The Shop That John Keene and the Shop That Keeps John." This may very aptly be applied to the citrus orchard, which if "kept well" will "keep the owner well," needing but good care and ample fertilizer or feeding to do its part. And it may be well to look ahead this year and be prepared to take care of a heavy setting of fruit, which will mature none the worse for a little extra in the shape of fertilizer or manure.

Orange trees this January, on all sides and in all districts, show a "life," and what might almost be described as an eagerness to start their spring growth, which has not been present for several seasons past at this time of the year. Not only the tree itself but the oranges on it show signs of rapid and healthy growth immediately ahead.

The mottle leaf seen in many orchards will now largely disappear with the freedom of sap flow, provided the soil is in good condition and contains ample plant food, and nothing occurs to check the tree growth in any way.

Replying to a question asked him by the writer last fall with regard to the condition of so many of our citrus trees and the crops they were producing, Mr. H. B. Chase, of the National Orange Company, Riverside, gave it as his opinion that a wet winter and a warm summer would remedy many of the troubles then being experienced.

The winter seems to be making a good start, and we may well look forward to conditions which will produce bumper crops and healthy trees.

**New Thought Lectures Continue**  
The New Thought lecture delivered at the Unitarian church last Sunday evening by Rev. John Milton Scott of Los Angeles, was well received, and will be followed by two successive lectures to be given next Sunday at 2:30 p.m. and the following Sunday at the same time and place. The introduction to Mr. Scott's book, "Kindly Light," opens with the paragraph given below. It clearly expresses in his own words the feelings that developed the thoughts contained in this uplifting book of prayer:

"These meditations began in the soul's effort to commune with the Soul of the soul, to speak in secret with the Father of Lights about the problems of being, the sorrows and joys, the sins and sanctities, the emptiness and fullness, the shames and glories, the deaths and lives of the human experience, and the communion was always in the hope, in the confidence that love is the secret of the universe and wisdom the light of its revealing; and that in the fact of creatures being continuous, its

deed but being done, lies the explanation of its imperfections; the assurance that its shadows but conceal a light that it may all the brighter break forth because of the little while it is concealed."

It is hoped by those interested that a sufficient number of students of the New Thought Philosophy may be found in this city to organize a class for continuous study. Anyone interested in the subject is most cordially invited to the lectures, and others who would like to know more of this hopeful attitude of mind are welcome. Anyone desiring information regarding a class and Mr. Scott's leadership is requested to communicate with Miss Cecilia Goldsworthy at 929 Spurgeon street, Santa Ana, Sunset phone 10773. The subject of the lecture next Sunday afternoon will be "The Spirit and Vision of the New Thought."

At 6 p.m. there will be a reorganization of the Epworth Leagues. The

Senior League will meet in the basement of the church hereafter, and the Junior League will meet in the parlors of the church as heretofore. Another Senior League will be organized and hold its meetings in the Sunday school room. Only young people will belong to this league. The pastor will continue his series of Sunday evening addresses on "What We Believe, and Why?" Tomorrow night he will speak on "I Believe in Jesus Christ." Do you believe that Jesus Christ was the Son of the Living God, sent by Him to save the world? Was He inspired in the sense in which the great moral teachers of the world are inspired? Was He God's very Son, supernaturally born, dying on the cross as an atonement for sin, rising again from the dead? These questions will be discussed.

At the close, a brief stereopticon address on "Five Days on the Lullatania," or "Life's Voyage; Its Pleasures and Perils," will be given. ## PLEASANT DINNER PARTY

Mrs. E. B. Burns Hostess for Dozen Friends—Charming Home Scene of Gavety

The beautiful home of Mr. and Mrs. E. B. Burns, 916 Spurgeon street, was even more charming than usual last evening when Mrs. Burns was hostess at a delightful seven-course dinner at which covers were laid for Mr. and Mrs. Burns, Mr. and Mrs. C. E. Franch, Mr. and Mrs. J. P. Baumgartner, Mr. and Mrs. L. J. Carden, Mr. and Mrs. W. A. Zimmerman, Miss Dresser and Miss Irvine.

Pink and white roses were massed in a silver jardiniere for a centerpiece, and at each end of the table were crystal dishes of white hyacinths and ferns. The dinner was a merry one, one of the entertaining features being the completion by each guest of a two-line rhyme, the first line only being given on the slips of paper passed between the courses. The resulting jingles were read aloud, creating no end of fun.

Old fashioned games and contests of lively sort were played during the evening after the dinner, the vivacious hostess leading the meriment. A peanut race in which the contestants carried peanuts on the end of a knife blade was particularly interesting to the spectators and most exciting for the contestants. Instrumental music by Miss Gladys Burns offered a pleasing diversity to the games.

## Supper and Social

A getting acquainted supper, followed by a program of music and readings, was enjoyed on Thursday evening by the members and friends of the Unitarian church. Mrs. E. W. Hardy was in charge of the excellent supper which was served piping hot.

The evening program included a piano solo by Gilbert Bradford, a vocal duet by Mrs. Charles Overshiner and Mr. Bradford, and a reading by Vior Robinson. A social period closed the pleasant evening. Similar affairs have been planned for each month by this church with the idea of promoting the social life of the church.

## Talked Before Travel Club

Col. S. H. Finley gave an interesting address before the members of the Young Ladies' Travel Club at their meeting held at the home of Miss Janet Smart on North Main street, on Wednesday evening.

The subject of Col. Finley's address was "The Panama Canal." Ice cream, cake and coffee were served by the hostess following the interesting lecture.

## For Rev. and Mrs. Thomas

About sixty of the many friends which Rev. William Thomas and his family have made during their brief residence in Santa Ana met in an informal gathering at the home of Mr. and Mrs. J. Rhea Baker at 820 West Fourth street last evening to thus express their esteem and appreciation.

The parlor, living room and hall were beautifully decorated with roses and smilax. Refreshments were served in the library, which was trimmed in shades of green.

A fine program of readings and music was carried out, at the close of which Mr. Freeman presented to Mr. Thomas a beautiful electric reading lamp as a slight token of the esteem in which he is held by a large number of the church and congregation to which he has ministered during the past six months. Not only these friends, but a vast number of people with whom Mr. Thomas has been associated in Santa Ana, regret sorely the close of his ministry in this place. His life as well as his ministry has proven a benediction to many and these can but congratulate the friends to whom he shall minister in his new field of labor.

## Pleasant Club Meeting

The D. T. S. Club met Friday afternoon at the home of Mrs. R. H. McArthur. Owing to the inclemency of the weather a number of the club members were unable to attend. The roll was answered by discussing novel Christmas gifts received.

Guests of the club were Mrs. B. A. Peake, Mrs. G. G. Buchheim and Mrs. Frank Jones. These with the others present joined in the dainty collation served at the close of the social hour.

## THAT PROGRESSIVE SUPPER

Automobiles Whisked Guests From Course to Course During Unique Baptist Event

The Progressive Supper given by the ladies of the Helping Hand of the first Baptist church Friday evening was a decided success in every way. The threatening weather seemed to have no power to keep the Baptists at home or to dampen their spirits. At 6 o'clock the travelers for the evening began arriving at the J. Wylie Harris home, 506 East Fifth street, where the first course of the dinner was served. The piping hot soup was a splendid starter. From here automobiles took the sixty hungry innocent but confident possessors of small tickets procured for fifty cents, westward. They all rolled up to the A. C. Black home, 709 West Fourth street, where a substantial course of roast beef, brown gravy, mashed potatoes and accessories was placed before the company.

Into automobiles, at the mercy of the drivers, going in relays, the jolly crowd began to travel again. At last all had been to the W. E. Winslow home, 712 Bush street, and served to a delicious salad course. Here Victrola music accompanied the merry chat of the almost inwardly satisfied company.

Out again into the darkness of the night the autos took them to the Geo. W. Minter home, corner of Third and Birch, where the last course of orange ice and cakes was served. The party lingered at the Minter home to enjoy a delightful hour of social pleasure and music before being conveyed in automobiles to their homes by the obliging drivers of the evening. At least seventy-five people enjoyed this unique progressive supper and its pleasant social accompaniments.

## Duplicate Whist Club

## Former Santa Ana Dead

T. E. Winbiger yesterday received a letter from C. H. Cottle of San Francisco stating that his wife, Mrs. C. H. Cottle died in that city on Dec. 31. Mrs. Cottle was well known here. She was the daughter of Mr. and Mrs. R. O. Shiveley who formerly resided in Santa Ana.

## New Bill Poster

Mr. and Mrs. C. A. Harnois, of Missoula, Montana, arrived in Santa Ana last Monday. Mr. Harnois has established himself here in almost record-breaking time. He bought the bill posting business of M. D. Neild on the first day he was here and on Wednesday purchased a house at 311 South Broadway. In Missoula he was known by almost everybody as "Uncle Charlie."

Mr. Franz Burger, lately of Berkeley, Cal., has opened a studio at 115 1/2 West Fourth street, in the rooms recently occupied by Mrs. Ada F. Champ. Mr. Burger has studied with some of the best artists in Germany and has traveled extensively, both on this continent and abroad. He is prepared to give instructions in painting (any medium) and designing.

## DAVID HEWES HAS PUBLISHED BIG GENEALOGICAL BOOK OF MORE THAN USUAL INTEREST

Years of planning and work by David Hewes and those employed by him have resulted in the publication of a 656-page book entitled "Lieutenant Joshua Hewes and Some of His Descendants." More particularly the title page has the following:

"Lieutenant Joshua Hewes, a New England Pioneer, and some of his descendants, with materials for a Genealogical History of other Families of the Name, and a Sketch of Joseph Hewes, the Signer, printed by Mr. Hewes as a memorial to his parents Colonel Joel Hewes and Ruth Tapley Hewes, his wife, of Lynnfield, Massachusetts."

While the book is edited and chiefly compiled by Eben Putnam, a member of the California Genealogical Society, back of the entire publication is the perseverance and artistic touch of that well known resident of El Modena, David Hewes.

The long and useful life of that study California pioneer makes him one of the most illustrious of the Hewes family. Residents of this county know well Mr. Hewes' public spirit in the establishment of Hewes Park, that beautiful spot on the famous Hewes ranch at the edge of the El Modena foothills. To that park visitors are taken because it is one of the show places of the county.

## SANTA ANA DEBATORS WON BOTH DEBATES LAST NIGHT

(By Bruce Wallace.)  
Victories for Santa Ana at both ends of the line were the outcome of the Orange county debates last evening. By virtue of winning both contests Santa Ana now heads the county league with a percentage of 33, Anaheim is second with 500, while Fullerton is tied with Huntington Beach for third with 333. The total score is figured on a basis of six points perfect, one point to represent the decision of each judge. The result of each contest was determined by three judges, and each school took part in two debates. Santa Ana won from Huntington Beach here by a unanimous decision, and defeated Fullerton there by a score of 2-1. Huntington Beach sprung a surprise when they bested Anaheim at home, 2-1, and Anaheim in turn beat Fullerton, 2-1. Fullerton, although they lost twice, nevertheless got one point at each place, which ties them with Huntington Beach, who failed to score here.

A fair sized crowd listened to the debaters in the assembly hall of the intermediate school here. The question was: "Resolved that armed intervention should be employed by the United States to secure a stable government in Mexico." Santa Ana upheld the negative side of the question and handed it remarkably well. The first speaker, Huntington Beach spoke for some time, on the past and present history of Mexico, and outlined the issues of debate as he saw them in a very clever manner but his arguments were for the most part undermined by Stanley Mansur, the first negative speaker. Mr. Mansur then took up the argument, maintaining that morally we have no right to intervene simply because we are, as a nation, politically superior to Mexico. She was holding her own, he declared, and the United States should live. Mansur closed with an explanation of the demands of the capitalists for intervention.

The second affirmative speaker spent a large part of his time in rebuttal work and was cut short on his argument by the timekeepers. Miss Estella Nison was the last speaker for Santa Ana. She clinched her statements and summed up the negative argument in a very convincing manner. She held that the United States was unprepared for war, and that the cost both in capital and in men would be too great to justify interference, which would also be a total disregard of the policy of The Hague Peace Court. Huntington Beach had five minutes for refutation but the judges took only a short time to decide unanimously in favor of the negative.

Over at Fullerton the affirmative team ran up against a stiffer proposition, but still came away with the honors. Miss Louise Grubb and Donald Stevenson did excellent speaking, although Fullerton would not acknowledge their own defeat, maintaining that the score should be counted on a percentage basis and not on the opinions of judges, as the officials of the league decided several weeks ago. Another meeting will have to be held soon, in all probability, to convince Fullerton of their error, but as all the other schools of the county understood the conditions as did Santa Ana, the result of the meeting is not in doubt.

This is the second victory of the Santa Ana debating teams this year, and no defeats yet. Miss Kistler, the debating coach, has done wonderful work in converting raw material into winning teams. Santa Ana did not have a single experienced debater at the beginning of the year.

In order to overcome Santa Ana's percentage, Anaheim must win the decisions of three more judges than does Santa Ana in the next contest. While this is not impossible, yet it is highly improbable, and it looks as if the Davis cup would find a home in Santa Ana's trophy case for at least one year.

—Dr. Claycomb cures chronic.

## DARKEN GRAY HAIR LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens So Naturally that Nobody Can Tell

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.—Advertisement.

### LOS ANGELES PRODUCE MARKET

The importation of millions of  
pounds of foreign meat into America,  
and the coming of thousands of tons  
of New Zealand and Australian meats  
to this state, apparently is having no  
great effect on the local market. Live  
stock took a decided advance all  
through the list, with the exception of  
pork. Steers jumped from 6 1/2 to 7 1/2  
cents; calves from 6 1/2 to 8 cents; hogs  
from 5 1/2 to 6 cents; bulls from 4 to 4 1/2  
cents, on the beef list, an advance of  
almost 15 per cent, all the way  
through. On the mutton list the  
advance ranges from 50 cents to \$1  
head. Ewes that were selling at \$3.50  
are worth up to \$4.50. There has been  
a similar increase in values in dressed  
meats, although not quite as heavy in  
the percentage. Scarcity of local cat-  
tle and arrivals from Mexico, Arizona,  
Texas and New Mexico within the past  
few weeks has caused the higher quo-  
tations. The cattle that is coming  
from outside territory is unfit for im-  
mediate market and is shipped to the  
nearby ranges and farms for fattening  
and conditioning before being sold to  
the packers.

On the produce market there were  
practically no changes. Fruits and  
vegetables were in good demand for  
the Saturday trade. The call for  
staples was also good. Eggs were un-  
changed in value, although the market  
was fractionally above and below the  
standing quotations in the active trad-  
ing of the morning.

Butter receipts were only 14,705  
pounds, and this was a partial reason  
for the slight advance in the price of  
that commodity, 1/2 cent up. Trading  
was very active and the demand for  
creamery extra a little in excess of  
the supply.

Owing to the rainy weather since the sale started a great many ladies have been unable to attend, but those who have come out have been astonished at the high quality of the goods and the big savings to be made on their purchases. Come and see the goods whether you buy or not.

#### NEITHER WINS BOTH LOSERS

Registrations Were Ordered  
Off by Stipulation  
Today

Girl Under Age Had Marriage  
to Boy Under Age Annulled  
Today

It takes two to make a contract. That is the reason Judge Thomas gave judgment for neither of the parties in an action tried in his court. The plaintiff had a contract, and so did the defendant. The trouble was that the contract was not with each other. Thuet & Davis, nurserymen of La Habra, contracted to deliver 4500 trees to W. J. Hole, and Hole made exactly the same contract to deliver 4500 trees to the Roeding & Wood Nursery at La Habra. Roeding & Wood sued Thuet & Davis for \$1300, alleging non-delivery of trees. Thuet & Davis replied, asking judgment for \$295 because trees that were offered were declined and for the care of those trees at one cent a month. The plaintiff asserted that Hole was their agent. When he went on the witness stand Hole declared he was not an agent and never had represented the Roeding & Wood Nursery. That settled the case. The judge said there was no contract between plaintiff and defendant.

**Marriage Void**  
Today an annulment judgment was given Marguerite E. Ray of Los Angeles against Robert Graham of Los Angeles. They were married here on

Nov. 3. Graham was under 21 and the girl only 16, but they gave their ages as 21 and 18 in order to get a marriage license.

#### Off Great Register

This morning saw an end to the three registration cases from Anaheim in which the registration of about 150 residents of that city were attacked. By the stipulation of Attorneys Head and Dutton for the defendants and of Attorneys Davis and Eden for the plaintiffs, Judge West entered judgment for the plaintiffs, striking the names of the defendants from the Great Register, each side to pay its own costs. That means that those defendants against whom the case was not dismissed cannot vote at the bond election at Anaheim on Jan. 27. If re-registered they can vote at the city election in April.

Since these three cases could not be tried in time to have any effect on the election at Anaheim on Nov. 6, there was no great thing left to fight over in court. The plaintiffs consider that they won a moral victory in that they secured judgment.

#### Articles Filed

Articles of incorporation have been filed by a second bank seeking to establish a banking business at La Habra. The new articles are by the Golden State Bank of La Habra. It has about twenty-five stockholders, \$27,500 being subscribed, of which over \$17,000 is by J. H. Cox of Whittier. The directors are Frank Millhous, O. L. Baldwin and Cox of Whittier, W. L. York, F. E. Proud and Clarence Glazier of La Habra and John Lehm of Corona.

#### May Not Try It

Yesterday Judge West named Feb. 17 as the date for the trial of James Bryant, charged with assault with a deadly weapon upon F. M. Fender of Buena Park while hunting ducks on Oct. 1 near Sunset Beach. The district attorney stated that he might not try the case again. The first jury stood eight to four for acquittal.

#### Insanity Charge

On the complaint of his wife, Chester Reedy has been charged with insanity. He was arrested by Constable Jackson.

#### Taken in in Fees

Under the grand jury report it would appear that the county recorder's office received only \$6,822.90 in fees during 1913. That figure was

for the last five months, during the time the office operated under the new salary act. In 1913 the office received in fees \$16,808.90. In 1912 it received \$17,423.50. The recorder states that while the fees were not as great in 1913 as in 1912, the volume of work was greater in 1913 than in 1912.

#### Marriage Licenses

Alvin B. Johnston, 22, and Ione M. Porter, 18, both of Placentia; Walter Guy Smith, 31, and Hattie E. Vonedda, 28, both of Orange.

#### \$60,000 TO BE SPENT ON VENICE WINDWARD PIER

VENICE, Jan. 17.—Plans for the new improvements on Windward pier have been announced at the Abbot Kinney Company office. About \$60,000 will be expended in beautifying the pier. The improvements embrace a woman's rest room, a shell bandstand and a promenade space. Work is to be begun in ten days.

#### SUPERVISOR SAYS IT IS NOT COUNTY ROAD

Supervisor Leek has a small crowd to pick with the late grand jury. The grand jury reported that the roads of the county are in good shape except the Trabuco canyon road, which the grand jury says is taken care of by a mining company.

"To begin with," said Leek today, "the grand jury failed to recognize the fact that the portion of the Trabuco canyon road above the Trabuco schoolhouse is not a county road. The law prohibits the county from spending money on a road that is not needed, and we have no need to that road. As to the rest of the Trabuco road, that under the county's jurisdiction, twenty miles of it from Culver's corner to the Trabuco schoolhouse, there is not a better road in Orange county. I think it is only fair to my road overseer to call attention to the error on the part of the grand jury."

#### TELEPHONE GIRLS SAVED LIVES BY WARNINGS

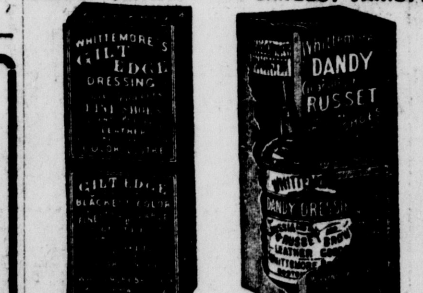

CUMBERLAND, Md., Jan. 17.—That the breaking of the huge dam at Dobbin, W. Va., which sent a wall of water down the Potomac River valley resulted in no loss of life and comparatively small property loss, is attributed to the signal brigade of telephone girls organized by the residents of the river towns. All residents of the lowlands have returned to their homes.

Mell Smith, the Watchmaker, has moved to 304 Main street.

#### LOWER RATES FOR GAS WILL SOON PREVAIL

Orange is Also Promised  
Natural Gas at Seventy-five Cents

ORANGE, Jan. 17.—Orange is going to be served with natural gas at a rate of seventy-five cents per 1000 cubic feet. This information has been received in a letter to the city trustees from President Bain of the Southern Counties Gas Co.

The gas company has had negotiations with Santa Ana, Fullerton and Anaheim in regard to natural gas, and had promised each of those places at present. The trustees here wrote to the company to find out if this city would be in on the new arrangement.

Bain replies that it will. He says that the pipeline from the oil fields will soon be here and that work laying the line will commence about Feb. 15.

#### SUBMARINE'S FATE SEEMS HOPELESS—STILL SEARCH

PLYMOUTH, England, Jan. 17.—Search for the lost submarine A-7 was resumed this morning in Whitland Bay, although there was no hope of any aboard being alive. The sea continued rough. The bay swarmed with small craft and the shores were lined with people interested in the fate of the men on the lost boat.

#### HONORS THRUST UPON HIM

NEW YORK, Jan. 17.—Sergeant Samuel Katzman, an artilleryman, in voluntarily looped the loop in an aeroplane at West Point yesterday and established a record for this feat among military aviators in the United States. The aviator, a novice, was flying about 2000 feet high when his machine turned over and dropped 500 feet. Katzman remained in his seat and in righting the aeroplane made a complete loop. He landed unhurt but confused.

#### CORONER HALTS REMOVAL OF SUPPOSED SUICIDE

NEW YORK, Jan. 17.—While the body of Vice President Richard Lankford of the Southern Railway was being moved from his apartments in Brooklyn to the station en route to his home at Princess Anne, Md., Coroner Ernest Wagner ordered it returned. Lankford was found dead Thursday in the bathroom of his apartments, the gas flowing from an open jet. It was believed he had committed suicide. The coroner's discovery among Lankford's private papers caused him to change his opinion regarding suicide. Startling revelations are hinted at.

#### DOUBLE SUICIDE—MAN IS THOUGHT KENTUCKY JUDGE

SAN FRANCISCO, Jan. 17.—Financial difficulties are believed today to be responsible for the double suicide last night of a man known as A. B. Wood and his niece, Blanche Wood. Police investigation showed the name of Wood to be assumed. It is believed the man was formerly a supreme court justice in Tennessee. The man was 54 years old and the woman 24.

Edward Roberts, the man's friend, was with the couple when the tragedy occurred. The girl seized a revolver and shot herself through the heart. Wood leaped to her side, took the gun from her dying hand, and then sent a bullet into his own body. They died almost together.

A note left by Wood said: "All my friends have deserted me since I lost my money."

#### MUST PLANT ROSES TO AVOID JAIL SENTENCE

RIVERSIDE, Jan. 17.—To avoid a jail sentence, Mrs. Delina Conchola yesterday agreed in Judge Ellis' court to carry back to the Wright Brothers' ranch in this city thirty-five choice rose bushes and to plant them along the roadside near the residence whence she fled the bushes. Chief of Police Corrington told the court he would see that the woman plants the bushes.

#### FEDERAL BUREAU GETS STANDARD RADIUM GRAIN

WASHINGTON, Jan. 17.—A tiny particle of radium, upon which the federal bureau of standards will base its experiments in an effort to standardize radium in the United States, was received from Paris yesterday. It weighs twenty milligrams and cost \$1500. Only thirty grams of this substance is known to be in existence.

Santa Ana Painless Dentists, 102 1/2 East Fourth St. Main 258.

#### LAMPASAS GROUNDS AT KEY WEST—IS SAFELY FLOATED

NEW YORK, Jan. 17.—The Mallory line steamer Lampasas, coming from Tampa to New York, went aground today off Key West, according to a wireless message received here. The passengers were transferred to another ship while the vessel was again floated. They then returned to the ship, which resumed the voyage northward.

#### TURKEY At Hotel Rochester, Orange, tomorrow (Sunday).

#### Prune Jelly

Prune jelly is a dessert that can be made when no fresh fruit can be had. Pour a quart of cold water over a quart of prunes. If they are the sort of prunes that come wrapped in waxed paper, and so are reliably clean, they can be cooked in this water. If you cannot rely on their cleanliness, wash them carefully, throw away the water and add another quart. If they are the waxed-paper sort, they will not need soaking for this recipe. If the other sort, soak them until they are tender. Put them over the fire and let them boil gently until they are soft. Add the juice of half a lemon and two tablespoonsful of sugar and take the prunes out of the liquid. Pit them and put them in the bottom of a jelly mold. Soak a boxful of gelatin in a little cold water and pour the boiling liquid in which the prunes were cooked over the gelatin. Stir until the gelatin is dissolved and then strain over the prunes.

#### Ironing Hint

When ironing dresses fastened with hooks or snaps I fold a very soft towel very thick and lay the edge of the dress hook down on the folded towel and iron on the other side, says a correspondent. Dresses trimmed with small buttons can be ironed in the same way, looking much better than when ironed right side up, which often leaves a rough looking place on an otherwise finely ironed dress. I find this much the neatest and quickest way to iron all kinds of dress fastenings.
